Retreat Meeting Agenda

Enrichment Experiences

CLASS 25 recently spent time with NC Superintendents, learning about their vision for strong leadership. This was an informative session and gave Principal Fellows a chance to ask questions about what they should focus on while interviewing for assistant principal positions.

Enrichment Experiences

CLASS 26 found themselves at the beautiful BB&T Leadership Institute, where they focused attention on being conscious leaders. Principal Fellows explored how to look at conflict from a "balcony view" and learned about their own biases, including the role they can play while working with others.

NC Standards for School Executives & the 21 Competencies

Contained within the NC Standards for School Executives are 21 Competencies in which assistant principals and principals should strive to master as effective leaders. An opportunity exists in which these critical components can be used as a vehicle to address decades of inequity across NC schools. Through a digital platform, equity can be woven throughout the competencies, helping school leaders focus on the creation of environments that support **all** students, and the removal of barriers to their success. This model would not only assist in the preparation of aspiring leaders, but could become a valuable resource for school systems. To learn more about this, [click here](#).

NCPFP Commission
